
Technology solutions for addressing submarine interconnections

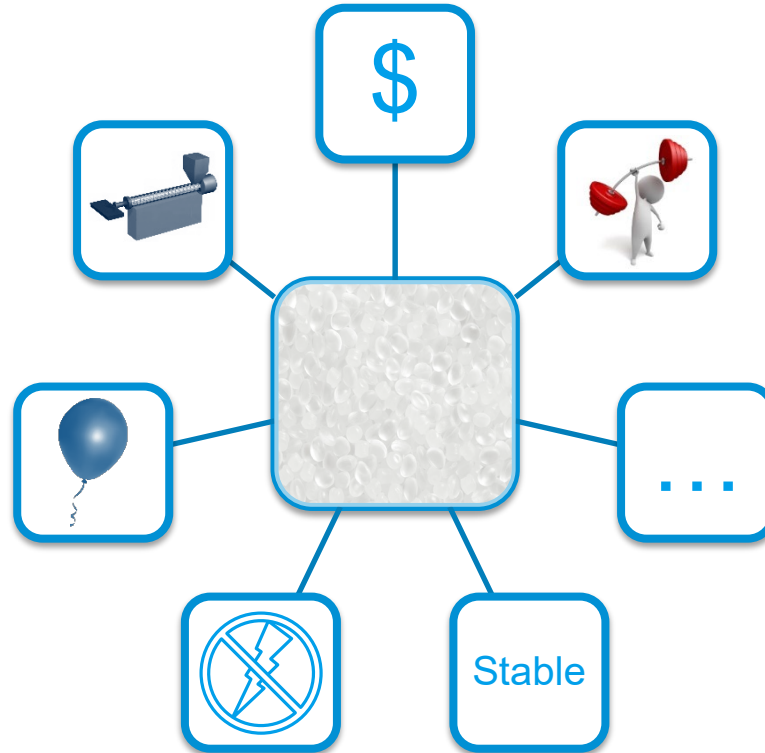

TGEG

June 27, 2019

Keep Discovering

Introducing: XLPE...

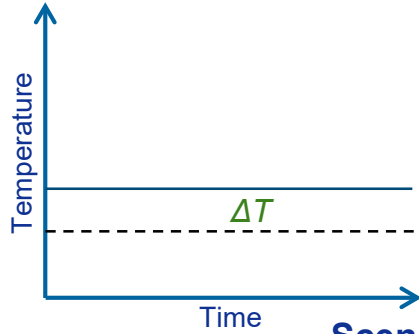

Cleanliness is Key

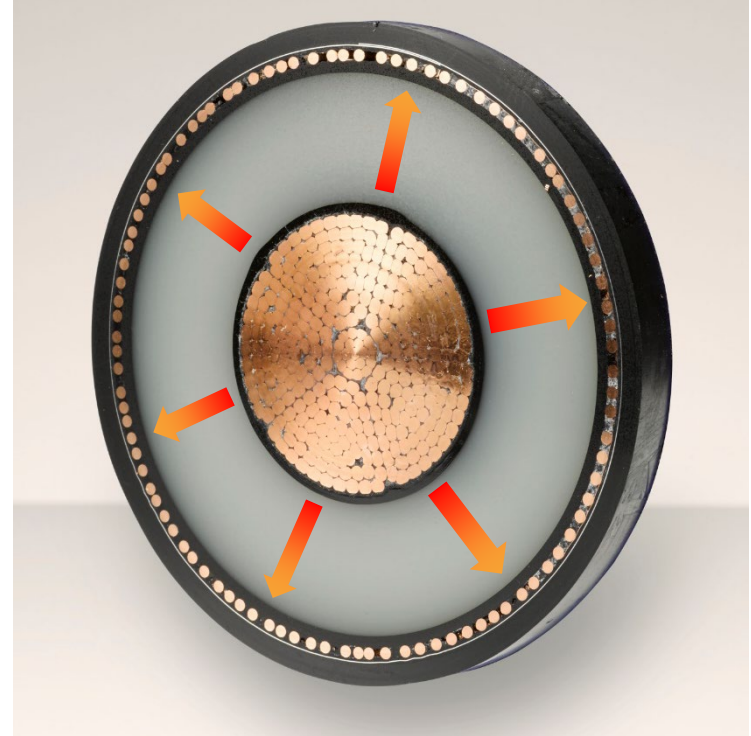

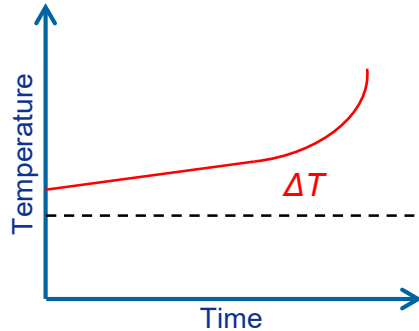

HVDC brings specific requirements

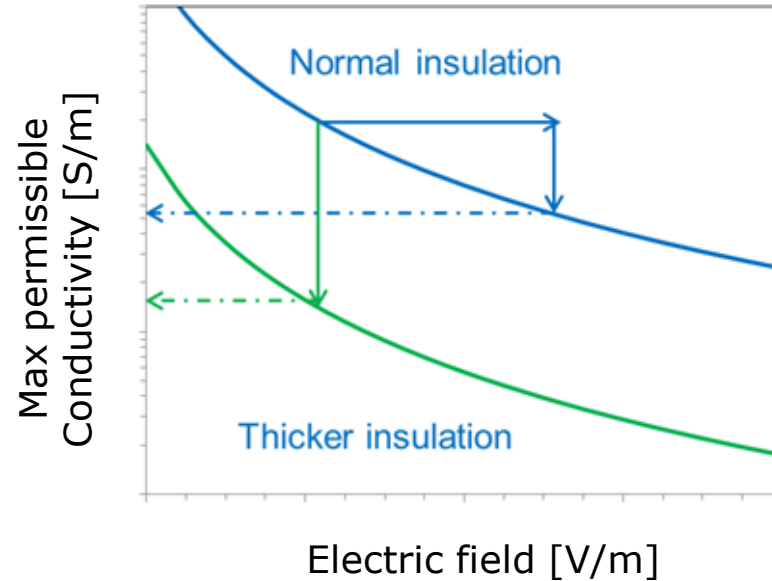

Scenario 1 – Steady state

Scenario 2 – Thermal runaway

On Top of Cleanliness... Conductivity

Beyond Electrical Properties

Beyond the Product

Outlook – from a material supplier's perspective

In courtesy of NKT

- Focus on **reliability** both in terms of:
 - Product Performance
 - Service Performance
- The limits will be pushed
 - Product Performance (bis)
 - Larger extrusion volumes
 - Greater depths
 - ...

Outlook – from the Industry

- Cost vs. Performance vs. Sustainability vs. Flexibility vs. ...
- Priority?

Success through greater cooperation across the Value Chain

"This really is an innovative approach, but I'm afraid we can't consider it. It's never been done before."

Thank you
